

REVATHI G

Master Of Computer Application

CAREER OBJECTIVE

Highly motivated MCA student seeking an opportunity to start a career as a Full Stack Java Developer in a growth-oriented organization. Passionate about web development, frontend and backend development, and building responsive and user-friendly applications. Strong problem-solving abilities, quick learning skills, and a keen interest in developing innovative software solutions. Looking forward to enhancing technical knowledge, gaining practical experience, and contributing effectively to organizational growth and success in the IT industry.

PROJECTS

DRIVER DROWSINESS DETECTION USING PYTHON

Developed a real-time drowsiness detection system using OpenCV and dlib that monitors eye movement to alert drowsy drivers, enhancing road safety through computer vision and machine learning techniques.

SIMPLE INVOICE MANAGEMENT SYSTEM

Designed a responsive web interface for creating and managing invoices. Implemented dynamic calculations using JavaScript for real-time updates. Improved user experience with clean UI and interactive elements.
